While the Senate wrangles with the tariff bill, our neighbors plant their gardens, and basketball players run riot, mustard greens are still as popular as they were in our

Yes sir, there's nothing like mustard greens, and because we don't believe they can be purchased on the market we can't be accused of trying to give some friend free adver-tising. The outskirts of Richmond abound with this delicious spring dish and you might as well take your basket and join the merry throng

After the next rain it will probably be too late. Sweet and tender during their youth, mustard greens have a habit of getting tough and bitter tasting as they get older. Just like a human being in many

We're delighted to hear that the Chamber of Commerce is taking an active interest in the planting of trees to beautify our city. Trees planted now will add a great deal to the appearance of many of our streets and yards.

And while we're on the subject. How about that Richmond organization that is going to come to the front and offer a prize for the best garden, both flower and veget-

Incidentally there is somewhat of a selfish motive in that because we believe that if the birds and the neighbors' chickens let our seed one worth while.

The plan has been followed out in many cities and found worth while. A small cash prize would mean the spending of thousands of dollars to make many of our yards and streets more attractive. Real estate men would find easier sales for their clients if the surrounding neighborhood was dotted with beautiful flowers.

Roses bloom here practically the entire year round. Other flowers are also in that category. And if you don't believe that watching them grow and bloom will give you a thrill, try a small plot in your back yard this year.

Here's an idea also for Jack Barry of the Kiwanis club, and some of the leading lights in the Lions and Rotary clubs. Why not have a rule in your club that each member must come to the weekly luncheon meeting wearing a flower grown in his own yard. If he doesn't wear one, present him with the soak box. We believe that such a process would help the appearance of the meetings and also might raise enough in fines to aid the fund for a garden contest.

Any suggestions as to how to further this garden and flower idea in Richmond will be appreciated. Send in your suggestions to 'Round 'N

SAN JOSE, Feb. 12.-UP-The wo bandits who held up the Cali fornia theater here and escaped with \$5000 were identified late toiay by Harold Flora, assistant manager of the theater, as James McBride and Jack Harter, both with Los Angeles police records. Photographs of McBride and Harter sent here by airplane were means of the identification the sher ff's office here revealed.

Laundry marks found on clothes discovered in a machine stolen by the two men was the first trace of their identities. The machine was registered in the name of Mc-Bride of San Diego and was dis-lcovered deserted in Pacheco Pass. Clues Traced

The clothes were sent immediately to Los Angeles where they were traced by the laundry marks and found to belong to McBride. Harter was implicated from his revious association with McBride. The photographs of McBride and Harter sent by plane from the Los Angeles sheriff's office were shown to Assistant Manager Flora and two girl employees of the theater. All declared the pictures were exact likenensses of the two men who held up the theater.

Search On The latest theory regarding the destination and the possible hid-ing place for their loot was that McBride and Harter were still in the vicinity of Fresno today, and that they had thrown 70 pounds of silver from their car as they pas

And perhaps not one will have to do with the modernist movement as we find it expressed through futuristic design or novelty; yet each detail condenses to the fireplace wall, while other panels in the room are left in the plain painted finish.

The diagram of rearrangement shows a more comfortable disposition of Mrs. W.'s furniture. Her use of a long table over the radiator between the two windows is clever, and if she replaces the down is clever, and if she replaces the table with a spinet desk she may use the desk in the same position. Or, if it will fit over the radiator in this position, the desk may be turned at right angles to the window extending out into the room, as indicated on the diagram.

ple whose orbs resemble somewhat once brilliant stones that have become antique; the shy-eyed people who seem not to have any eyes at all, and the sly-eyed people who are about as comforting to have around as sleuths. An endless pageant of eyes, eyes remembered not by their color or their size but by their expression, or lack of it.

About the expression of our eyes. but by their expression, or lack of it.

About the expression of our eyes, mirrors cannot tell us the truth. Certainly they are unable to tell us the whole truth. You see, we cannot quite avoid doing some little posing when we look upon our own reflections. Where then can we go for an honest and accurate opinion upon the spiritual value of our eyes? No, no, best friends won't do at all. For in such matters they are prone to flatter or to underestimate. It looks as if the only place we can go is to ourselves, our real selves. real selves.

And here is what we must inevitably

discover: that if we are cynical and bitter our eyes will betray us; if we are sly and prone to cheat in the game of life our eyes will tell on us; if we are fed up with all things, our eyes we are fed up with all things, our eyes will make known to the world our laziness in the matter of digging up fresh interests; if we have not trust nor faith in our fellow beings our eyes shall become as balls of opaque glass inspiring neither faith nor trust in the feelings of our fellow beings toward us.

If, on the other hand, we would have sparkling eyes, tender eyes, eyes with depth and mystery, eyes that look as if they understand, the eyes of innocence, the eyes of wisdom the eyes of cence, the eyes of wisdom, the eyes of love, then it follows that sparkle and tenderness, depth, understanding, innocence, wisdom and love must have their roots in our souls.

their roots in our souls.

For many and obvious reasons those are qualities well worth planting and cultivating, and one reason is that they are reflected not alone in the eyes but in the expression of the entire jewelry the birthstone of the month affords a good medium for selection. This is particularly true this month.

(On the job for you at the London Naval Conference is J. Herman Seidlitz. Mr. Seidlitz's reputation as a naval expert needs no enhancement here. For twenty years he was chief pilot for Capt. Kidd. In 1789 he won the Distinguished Service Medal for tacking amendments on the frigate Constitution when she was leaking. For this bravery he was promoted from head steward to Rear Admiral. In our war with Spain, it was Mr. Seidlitz who supplied the corks when Dewey bottled the Spanish fleet in Manila Bay. J. Herman Seidlitz also acquired undying prestige as a naval authority when he served as head ticket taker for the "Shoot the Chutes" concession at Coney Island. He is now in London on what we hope is an indefinite leave of absence as correspondent for this paper. He files a daily despatch to this office of which this, unfortunately, is not the last. Stars handed the Martinz Native Sons a 27 to 15 defeat last night at the Richmond union high school The Richmondites had the upper

hand throughout last night's contest. Hole shots were in order, and both teams took ample advantage of their chances under the basket "Bunny" Muth was high pointer for the local quintet, gaining a total of eight points. Korte had a big night at center for the Native Sons

of Martinez, and piled up a tota!

of seven counters.

The local outfit last night aven ged their defeat by the Martine: outfit at Martinez. The Richmond boys at that time succumbed to the fast offensive of Martinez, and went down to a 40 to 33 defeat. Martinez had several stars in their lineup in that game that were missing in their ranks last night. This was probably the reason that Richmond had such an easy time of it in last night's contest.

Richmond's Al!-Stars will travel to Petaluma tomorrow night to meet the Petaluma Al'-Stars. Petaluma has given plenty of trouble to its opponents in the chicken territory, and Richmond ought to have a hard battle tomorrow night.

The Richmond lineup last night was as follows: B. Muth 8, Gillan forwards; Bonham 2, center: Barbieri 2, Lee, guards ; substitutes, A. Muth 4, Huzefka 2, forwards; Baldwin 4, center.

The lineup of the Martinez Native Sons included: Hoffman, and Johnson 4, forwards; Korte 7, center; Woo'ey, Swith 4, guards; supstitute, Kapp, guard.

TRYING TO SHEAK

Anglo-American battleship parity agreement reached here will leave the British with the world's greatest warship and the United States without the right to duplicate it, it appeared !ikely tonight.

The suggestion had been made that in scrapping five British and three American battleships to achieve parity, the United States should be privileged to replace an additional old battleship with a super-dreadnought like Britain's Rodney, the largest and most upto-date war vessel in existence.

Today's developments, however, seemed to indicate little hope for such a proposal. The American delegation was somewhat dismayed by the attack made on the suggestion by Chairman Borah of the powerful Senate Foreign Relations committee, which must pass on any treaty signed at the Five-Power conference.

British Opposed It was denied that the idea had been abandoned, but there was growing doubt among the delegates as to the wisdom of the

# Protect Your Furniture

A \$1.25 to Rid Your Home of Moths May Save You Hundreds of Dollars. MORTEMOTH

KILLS MOTHS The gas from Mortemoth crys tals not only protects your furniture for a long time, but contact with it kills all moths, their eggs and thèir dangerous larvae in furniture which is already infested.

The proper method of using Mortemoth crystals is to tie them in small sacks, and to place these sacks down in the channel of the piece, as deeply as possible, behind the cushons, so that, upon expansion, the gas will spread and fill the spring units in the back and in the bottom of the piece.

When the sacks are empty, fill them again. PRICE \$1.25 PER BOTTLE
